

THE FLORIDA TECH SHOWCASE

AI Hackathon

Sponsorship package

Registration opens October 1 · Build November 11 – December 2 ·
Judging day December 3, 2026

FLORIDA POLYTECHNIC
UNIVERSITY

RATED #1 IN FLORIDA

**Florida Poly's Computer
Science program is ranked the
#1 CS program in Florida by
Research.com.**

PRESENTED BY

**Department of Computer Science
& the Student AI Club**

A student-run, faculty-backed build
competition on a 100% STEM campus.

Theme named by the title sponsor

LLM + cloud builds

~80 participants

2 tracks · 6 awards

Tiers from \$500

The Event

Students and professionals spend three and a half weeks building working, cloud-hosted AI applications against a real problem set, then demo them live to a judging panel on December 3. Every project ships a public repository, a narrated demo video, and a functional prototype — mockups do not qualify.

~80

Participants

Point judging rubric

KEY DATES

Oct 5	Registration opens
Nov 11	Launch, theme and requirements announced; workshops begin
Nov 11 – Dec 2	Development period, mentor office hours on Discord
Dec 1	Registration closes
Dec 2, 5:00 pm	Demo videos due (3–5 minutes, narrated)
Dec 3	Live presentations, judging, and awards on campus

WHO COMPETES

Florida Poly students	\$5
Undergraduates, other schools	\$10
Graduate & professional	\$20

Entry fees are kept deliberately low so cost is never the reason a team sits out. Sponsorship is what funds the prizes, shirts, trophies, and the finale.

WHAT SPONSORS SHAPE

The problem set

The title sponsor names the challenge domain and the objectives teams are scored against.

The stack

Cloud and LLM partners set the infrastructure and model APIs every team builds on.

The curriculum

Sponsor-led workshops on cloud basics, LLM integration, and agentic workflows.

Why Sponsor?

Three things a check to this event puts in front of the students who will be hiring-ready in eighteen months.

TALENT PIPELINE

A hiring line into the #1 CS program in Florida

Florida Poly awards degrees in engineering, computer science, and data science, and nothing else. You see these students' code, their repositories, and their live pitches — not their résumés alone.

NAMING RIGHTS

Eighty builders working on your problem

The title sponsor names the challenge and its objectives. For three and a half weeks, every team, workshop, and judging conversation runs on a problem you chose — and you keep the ideas that come out of it.

PLATFORM ADOPTION

Your tools become the ones they learned on

Cloud and LLM partners get their console and APIs into the hands of every team, taught in their own workshop. Engineers build on what they know first, for the rest of their careers.

WHERE YOUR BRAND APPEARS

Event t-shirts	Worn by all ~80 participants, on and off campus.	Trophies	Engraved on the awards winners keep.
Event website	Logo and name from launch through judging.	Eventbrite	On the page every registrant passes through.
Print & signage	Flyers, banners, table tents, program guides.	Stage banner	Behind every pitch and every awards photo.
Workshops	Streamed and recorded, taught by your engineers.	Event Discord	Office hours with the teams as they build.

Every sponsor, at every tier, appears on the event website, the Eventbrite page, printed flyers, and all official registration sites. Tiers add to that floor — they never replace it.

Sponsorship Tiers

Spot counts are what we are seeking. Cash and in-kind support are both welcome, and in-kind gifts are placed at the matching tier.

Title Sponsor

\$5,000

1 SPOT • EXCLUSIVE

- Exclusive problem naming rights: "The [Company] Challenge"
- Keynote or fireside chat at the kickoff workshop
- Logo on the t-shirt chest or sleeve and on main banners
- Named engraving on all first-place trophies
- Direct access to participant repositories and résumé books
- Reserved VIP seat on the judging panel

Cloud Compute Sponsor

In-kind / credits

1 SPOT • MAJOR

- Exclusive cloud partner: the official infrastructure of the hackathon
- Lead the "Cloud Basics" kickoff workshop
- Large logo on the t-shirt back and the stage banner
- Recruitment and swag table at the finale
- Requires cloud credits sufficient for all teams

AI / LLM Provider

In-kind / credits

1-2 SPOTS • MAJOR

- Official AI partner: the primary LLM engine of the event
- Lead the "Building with LLMs" technical workshop
- Large logo on the t-shirt back and the stage banner
- Requires API access and token credits for the build window

Platinum Sponsor

\$2,500

2 SPOTS

- Deliver a technical workshop on tooling or deployment
- Large logo on the t-shirt back and the stage banner
- Logo engraved on second- and third-place trophies
- Mentor representation during Discord office hours
- Recruitment and swag table at the finale

Gold Sponsor

\$500

6 SPOTS

- Medium logo on the event t-shirts
- Recognition at the opening and awards ceremonies
- Swag in every participant welcome bag
- Logo on the website, Eventbrite, flyers, and registration sites

Nothing here fits? Tell us the budget you have and we will build a package around it — a named award, a single workshop, the catering at the finale, or the shirts.

Next Steps

Commitments made before November 11 appear in the launch announcement, the workshop series, and on the shirts.

STEP 1	STEP 2	STEP 3
Email us	Confirm and send artwork	You are on the event
Name the tier you have in mind, or the budget, and we will tell you exactly what it covers.	We send a one-page agreement and a logo spec sheet; you send vector artwork (SVG, AI, or EPS).	Your logo goes live on the website and registration pages, and onto print in time for launch.

WHAT YOUR SUPPORT PAYS FOR

Prizes across both tracks — gift cards for six winning teams	\$2,800
Custom t-shirts and swag — 80 shirts, stickers, badges	\$900–1,100
Trophies and engraved plaques — 6 awards, sponsor-branded	\$250–350
Refreshments for the 2.5-hour finale, ~80 people	\$400–550
Signage and print — banners, flyers, table tents, programs	\$150–200
Total event budget	\$4,050–5,000

In-kind counts

Cloud credits, LLM tokens, shirts, printing, trophies, food, and hardware all offset the budget directly. In-kind gifts are valued at retail and placed at the matching tier.
